2^5 Design on WIFI Speed

Measurement

Connect to M-lab, an online WIFI speed tester to measure WIFI speed.

Factors

- Wireless frequency (2 levels: 5.0 Ghz or 2.4 Ghz)

- WIFI adapter (2 levels: USB or PCI-E)

- Computer OS (2 levels: Windows or MacOS)

- Wall (2 levels: behind wall or nor (same distance))

- Other user connection (2 levels: one or not)

Block

Different times
